March HOrOscOpe Signs

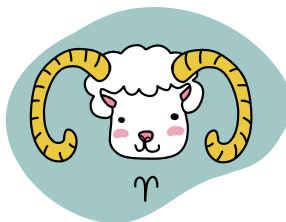

Pisces - February 19 to March 20

A water sign, the empathetic, compassionate Pisces is also the last constellation of the zodiac. This final sign is symbolized by two fish swimming in opposite directions with a yin and yang type of force. Caught somewhere between fantasy and reality, Pisces must learn to stay grounded in the material realm, and to avoid being swallowed up by their dreams and emotions. Because of their endless imagination, Pisces can make incredible artists and creatives.

Aries - March 21 to April 19

Aries is the first sign of the Zodiac, and as you might expect, Aries loves to be number one. A fire sign, Aries is bold and ambitious and will dive headfirst into even the most challenging situations, making sure that they always come out on top! Uncomplicated and direct, they can often become frustrated by exhaustive details and nuance. Aries looks after they leap, which can mean lessons are often, unfortunately, learned the hard way.
